

PASCAL KALUNGU

Project Manager | Data & AI-Driven Projects

Kalungup@gmail.com | +46700225497 | Edinsvägen 22A, 131 47 Nacka, Sweden | [LinkedIn](#)

PROFILE

Project Manager and Swedish Institute Scholar (2025) currently pursuing a Master's in Strategic Information Systems Management at Stockholm University (2025-2027). I specialise in leading data, AI, and technology-driven projects bridging structured project delivery with hands-on expertise in machine learning, data science, data engineering pipelines, and business intelligence.

With 6+ years of experience managing complex, multinational projects - including European Commission-funded initiatives, I bring a proven ability to coordinate cross-functional teams, manage data lifecycles, and deliver results in high-stakes environments. Actively seeking Project Manager or technical PM roles in Sweden within IT, data, AI, and information systems.

SKILLS

Project Management: Agile/Scrum, PM², EU-funded project delivery, cross-functional coordination, stakeholder management, grant writing

Data Science & ML: Python, Scikit-learn, machine learning pipelines, model evaluation, data labelling & dataset management

Agentic AI & Automation: Agentic AI systems, Mendix (Rapid Developer Certified), low-code/no-code automation, intelligent workflows

Data Engineering: SQL (MySQL, SQLite, SQLAlchemy), NoSQL, data warehousing, ETL pipelines, data cleaning & preparation

Business Intelligence: Power BI, Tableau, Excel dashboards, Cognos, reporting systems, data storytelling

Systems & Tools: Information systems design, documentation, Front-End Development (Meta), digital reporting platforms

WORK EXPERIENCE

Project Manager | Brighter Smiles International

Jan 2023 - Present

- Led development and optimisation of project management processes for EU Commission-funded initiatives, including the Erasmus+ EVETTI project across 9 partner organisations (Uganda, Norway, Sweden, Netherlands).
- Designed and maintained Excel and digital reporting systems to track project performance, resource allocation, and KPIs across multinational teams.
- Coordinated data collection and built monitoring & evaluation dashboards to support real-time decision-making.
- Structured data and information flows between partner organisations using digital tools and information systems.
- Supported development of a web-based platform for greenhouse gas emissions data measurement.
- Wrote and secured grants to fund strategic projects, ensuring alignment with organisational goals and EU funding requirements.

Co-founder & Project Manager | Ecopentist Limited

Jan 2022 - Present

- Co-founded an environmental sustainability venture focused on coordinating climate action projects and reporting.
- Managed project planning, stakeholder coordination, and delivery of environmental data initiatives.
- Applied sustainability reporting frameworks aligned with UN SDGs and climate accountability standards.

Technical Project Coordinator | Curiato Inc.

Sep 2018 - Oct 2021

- Coordinated a cross-functional team developing a data-driven healthcare monitoring solution (Smart Mattress) using IoT sensor data and machine learning analytics.
- Worked closely with data scientists and engineers on data collection, data labelling, and preparation of datasets for ML model training.

- Supported data engineering pipelines from raw sensor data capture to structured datasets used for analysis and modelling.
- Collaborated in defining data requirements, validation rules, and quality checks to ensure reliable model inputs.
- Participated in testing and evaluation of trained ML models by reviewing outputs and validating expected behaviour.
- Used Power BI, Excel, and database systems to visualise and report device performance data.
- Supported Agile/Scrum workflows by tracking data-related tasks, bugs, and improvements through structured backlogs.

Project Management Intern | Makueni County Government

2017 - 2018

- Collected, organised, and analysed field data from farmers and trial sites to produce research and performance reports for agricultural projects.
- Maintained structured records of farm validation data, prepared statistical summaries, and presented findings in stakeholder meetings.

EDUCATION

Master's - Strategic Information Systems Management | Stockholm University

Aug 2025 - Jun 2027

Focus: Business Intelligence · Decision Support Systems · Information Systems Design · AI & Data Systems

BSc. Project Planning and Management | Moi University

Oct 2013 - Dec 2018

Grade: Second Class Upper Division (3.5/4.0 GPA)

CERTIFICATIONS

- Mendix Rapid Developer Certification - Mendix (Mar 2026)
- Data Analytics Certificate - ALX Africa (Dec 2025)
- Professional Foundations - ALX Africa (Aug 2025)
- UN Global Compact Climate Ambition Accelerator (Dec 2024)
- Google Project Management Certificate - Coursera (Sep 2023)
- PM² C1 Essentials Project Management - European Commission / EU Academy (Oct 2023)
- Introduction to Front-End Development - Meta (Oct 2022)
- Data Visualization and Dashboards with Excel and Cognos - IBM (Sep 2022)
- Introduction to Data Analytics - IBM (Oct 2022)
- Data Analysis and Visualization Foundations Specialization - Coursera (Oct 2022)

LANGUAGES

- English - Fluent
- Swedish - Beginner (actively learning)
